Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.What transpires here is a revaluation of Christianity in the light of the author s mature philosophy and its Social Theocratic commitment to truth of an ultimate metaphysical order, which exposes the errors that stem from presumption of the death of God (on the Cross) and lead, inevitably, towards a humanistic dead-end. John O Loughlin also exposes the limitations of terms like mankind and man in relation to the full-gamut of class and gender possibilities which actually exist and condition or characterize life from one standpoint or another, as well as showing more fully how things actually divide into two axes which are not only divisible in themselves, but antithetical in virtually every respect, even with regard to sport and sex, on both somatic and psychic, state- and church-oriented terms.
