Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Applied Geography, a Preliminary Sketch: With Ten Maps This is not a text-book of Commercial Geography. The use of such terms as Commercial Geography, Political Geography, c., is I think unfortunate, as it leads to the impression that there are so many different kinds of Geography. The subject is the same to whatever practical purpose it may be applied, and therefore I prefer the comprehensive term, Applied Geography. The first edition of the book was published in 1890, and much has happened since to raise the standard of Geography in this country, and to improve its position in Education. Moreover, many changes have taken place as a result of the increased enterprise of the ruling nations in developing the resources of the lands of the globe, and in annexing such areas as were available for the purpose. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
