Here we have opportunity for the student, the artist, the scientist and for those who simply love pets. Modern research, by the discovery of a few simple principles, has enabled us to absolutely reproduce the conditions of aquatic Nature, so that now we may have, at first hand, an intimate knowledge of much of that mysterious life of the water-world. Through the glass of the aquarium we have a window where that which we see is only limited by our own capacity for observation. Although interest in aquaria has undergone a great awakening in the past few years, the public in general is still ignorant of the correct principles of aquarium management, and of the wonderful accomplishments of the breeders of fancy fishes. In addition to the extraordinary goldfish forms there are now available for our purposes over 300 other kinds of aquarium fishes. These, with other aquatic animals and a wide range of plants give us a great wealth of material from which to choose. It is the aim of the author and the publishers to present in simple yet comprehensive form a practical digest of all available information on the subject. This, it is hoped, will be of real value to the intelligent aquarist and at the same time give the general public a clearer idea of possibilities under proper management, so that an aquarium will no longer be merely something which must be perpetually...
