

New System of Classification and Scheme for Numbering Books, Applied to the Mercantile Library of Philadelphia (Classic Reprint) (Paperback)

By John Edmands

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from New System of Classification and Scheme for Numbering Books, Applied to the Mercantile Library of Philadelphia The general idea of this system is, First, the division and arrangement of the books, in such principal and subordinate classes, as will make it most easy to determine what works the Library contains, on any topic, and in what part of the collection books on any given subject are to be found; and, Second, the numbering and arranging them on the shelves in such a way that they can be most readily found without consulting a catalogue, or stopping, to ascertain the shelf number. In working out this idea it was found that all the books in any library of a general character, could be gathered into about twenty primary groups or classes, each of which would have a certain completeness, and would embrace a kind of book that was not included in any other class; and also, that the works in each of these several groups or classes, while having certain characteristics in common, yet had peculiarities...
