A653 2007g OCLC Number: (OCoLC)268661442 Subject: Mine safety -- United States -- Evaluation. Excerpt: . . . 11 - Installation and maintenance of lifelines in underground coal mines; - Immediate accident notification for all mines. - Installation of fire-resistant, directional lifelines; and - Requirement to provide multigas detectors to individual miners working alone and to each group of miners. This rule was effective immediately, on December 8, 2006, with the exception of some training and equipment provisions that must necessarily wait for training units to be developed and made available and for the equipment to be manufactured and shipped to some of the mine operators. With regard to the caches of SCSRs operators are required to store throughout the mines, MSHA has requested manufacturers of these units to give priority consideration to fulfilling orders to mining operations starting with those that do not have two SCSRs per miner. I have also written letters to underground mine operators asking them to ensure that they have at least two SCSRs per miner at...
